

**Drawing of Cove Pond as Mayor Phillips Would** 195  
**Like to See it Improved With the Aid of Federal Funds**

nd 9/12/1935

**Proposed Cove Pond Improvement.**

The drawing by Whitman Bailey shows the proposed Cove Pond as it would look, if the hopes of Mayor Alfred N. Phillips, jr., materialize through the financial help of the Federal Government.

The drawing depicts an island in the center of the pond, while the waters about charm with the activity of many boats that would operate, the Mayor believes, if the pond could be developed as a sports and recreational center.

Under the plans that have already been drawn for use by the joint Darien-Stamford Cove Pond committee, the shore line would be built up, filled in here and there and developed as probable parkland.
